Weather Indications.

WASHINGTON, July 2.—Forecast until 6 p. m. Tuesday: For Kansas—Fair; northerly winds becoming variable; cooler in southeast portions Tuesday morning.

A DIVINE'S success in life depends wholly on his bringing up.

SILVER may be pretty low but mercury still hovers close about par.

THERE would be no objections to anarchists becoming martyrs, if there could only be enough of them.

THE organ injunction decret can be explained in no other way than that Ed Howe is a teacher of organ playing.

GOVERNOR HOOD in announcing that he will retire at the end of his present term seems to have enunciated the Democratic policy.

THE honest people of New York must get together say the World. It isn't probable that the meeting will have to be held out of doors.

If fine words buttered parsnips Governor Lewelling would keep his commission house well supplied with that oleaginous necessity.

If the railroads do not win the Pullman strike, it will not be because they don't have Attorney General Olney's full sympathy and co-operation.

FOR political effect Governor Lewelling has no sympathy for the Pullman company; for reasons not clearly understood he is its private friend.

The dispatch sent out from Atchison that Judge Webb had granted an injunction against organ playing by people who can't play proves to have been a "fake" perpetrated by the Atchison Globe. The spirit in which the thing was done, the intention being to put an end to a common and uncontrollable mode of torture, was no doubt commendable, but a paper or person that will play fast and loose with a public, hungering and yearning for relief, by offering it an alluring remedy which vanishes before its eager grasp, ought to be condemned to everlasting companionship with a man who plays the cornet.

The Populists of the Sixth Iowa district have nominated a preacher for congress. If the Populists of Kansas do not reward in some way the preacher whose prayer before their convention was a campaign speech, they are worse than ungrateful.

THE Maine Democratic convention nominated a candidate for governor and adjourned while he was asking to be excused from accepting the honor. About the only way to get a man on the Democratic ticket is to do it without his knowledge.

As long as the Germans thought the Populists were really reformers they had no use for them, but since they have found out how the state house officials can drink beer, as an Atchison man said, they are all right.

SENATOR PEPPER'S amendment to levy a tax of \$50 on all aliens coming to this country to engage in industrial occupations was doubtless so framed in order not to interfere with the recruiting of our police forces.

SINCE the story has been told that "Gen'l." Sanders is going to marry a Topeka widow, it is easily explained why he was inquiring around after those plates and knives and forks.

THE French have a new kind of political availability. A member of the chamber of deputies said a man like Perier could be best spared in case another president were to be "removed."

SOUTH CAROLINA may think it is a shrewd advertising move to send a crank like Tillman to congress, but Kansas can give her some good wholesome advice on the subject.

KANSAS City Journal: The snail's mouth is said to be in the foot. The particular in which the snail differs from the average Democratic politician need not be pointed out.

EVEN though the saloons of New York should be relieved from paying the police blackmail, it probably won't affect the price of a Manhattan cocktail.

Racing Matinee.

There will be yearling trots and paces, two and three-year-old trots and paces, gentlemen's roadster class trots and paces, and a free-for-all race at the Racing Matinee, July 4th, for the benefit of Christ's hospital at the Fair Grounds. Admission 25 cents.

THE INCAPABLES.

Since President Cleveland made his bluff a few days ago, regarding the satisfactory condition of the nation's finances, the New York bankers have concluded to withdraw their offer to supply the treasury with gold. It is well. It is time that this bolstering up of an incompetent administration should stop. Let the Democratic party be thrown upon its own resources, so that the people may know where they are. If further financial embarrassments are to arise, it is better that they should come while congress is in session, and while the country's affairs are entirely in the hands of one political party, so there will be no difficulty in placing the responsibility for whatever may happen where it belongs.

If, as Mr. Cleveland would have us believe, everything is all right, and the financial situation is wholly satisfactory, then there is nothing more to be said. It is noticeable, however, that Mr. Carlisle accepted the bankers' gold as long as they chose to furnish it. Present conditions can no longer be charged to the Republicans. Congress, with a good working Democratic majority in both branches, has been in session nearly a year, long enough to have repealed all the Republican legislation ever enacted. All they have done in this line is to repeal the federal election law and the Sherman silver law, and the latter was only repealed by the aid of Republican votes. No great good has yet appeared as resulting from either action.

SHE GOT THE CHILD.

Mrs. Jamieson Uses a Revolver and Keeps Possession of Her Baby.

There was an exciting scene yesterday afternoon on east Fourth street near the Santa Fe depot, which resulted in little four year old Pearl Jamieson being taken away from her father, J. F. Jamieson, by her mother Mrs. Mollie E. Jamieson. The trouble between the man and woman dates from last fall when she applied for a divorce. They afterwards made up and the proceedings were dropped. About two weeks ago the trouble was renewed and this time the man applied for a divorce and the suit is now pending before Judge Hazen. Jamieson secured possession of the only child, a little girl, and refused to allow Mrs. Jamieson to see her.

Yesterday afternoon Jamieson and the child were out riding, and were met on Fourth street by Mrs. Jamieson. She stopped them and asked that she might be allowed to kiss the little girl. The father consented, and Mrs. Jamieson took the child in her arms and started to run. Jamieson jumped from the buggy and caught the woman who commenced to scream. Three or four men who were standing on the sidewalk came to her rescue, and held Jamieson while she escaped to her room with the child. The father at once followed to the room, but when he entered he was confronted by Mrs. Jamieson with a drawn revolver in her hand, cocked and pointed straight at him. She told him that she would "let daylight through him" if he came a step farther. He left the room.

Mrs. Jamieson still has possession of the child.

THEY ENDORSE LEWELLING

Strikers at Argentine and a Citizens' Mass Meeting Praise Him.

At a meeting of the Santa Fe strikers at Argentine Saturday afternoon resolutions were adopted praising Governor Lewelling for his sentiments expressed in his interview published on Friday. The following are the resolutions as adopted unanimously:

"Whereas, the troubles at Pullman, Ill., have resulted in a serious complication between railroad managers and employees; and

"Whereas, the trouble, though primarily being an attempt to effect a restoration of living wages to Pullman employees, has developed into a gigantic struggle between labor and capital for a recognition of the just demands of labor; and

"Whereas, His excellency, L. D. Lewelling, governor of the state of Kansas, has taken occasion, through the public press, to express his disapproval of the methods of the Pullman Car company in the treatment of its employees; and

"Whereas, he has deprecated the methods and utterances of federal officers and others in dealing with the labor question, and has shown and expressed a feeling of fraternal interest toward the honorable efforts of laboring men to better their condition entirely at variance with that of the plutocratic press, railroad managers, money power representatives and some federal officers, therefore, be it

"Resolved, That the American Railway union of Argentine, in mass meeting assembled, does hereby take occasion to publicly express hearty appreciation of the manly and honorable sentiments expressed by the governor and trust the day may come when men like his excellency will hold the highest offices in the gift of the people of this nation.

"Resolved, That a copy of these resolutions be forwarded to his excellency and that the Kansas City daily papers and the official paper of the state be requested to publish them."

In the evening a mass meeting of citizens was held at Argentine. The following resolution adopted by the People's party county central committee of Kansas City, Kan., earlier in the day, was adopted:

"Resolved, That we sympathize with the A. R. U. in its fight with the Pullman monopoly and approve the published interview with Governor Lewelling in today's papers."

Several of those present protested against endorsing Lewelling, but the "yes" had it.

FREIGHT RATE REDUCTION.

The State Board of Commissioners Announces Its Rate.

The state board of railroad commissioners has ordered a general reduction of freight rates in Kansas in accordance with the petitions filed with the board during the month of April. When these petitions were filed it was learned that they had been sent in from Populist counties as a political move and the reduction now ordered is regarded in the same light.

Under the decision rendered, the new schedule of rates, if put into effect, will make a reduction in the freight receipts of the Kansas railroads of about \$3,000,000 a year.

The reduction amounts to a maximum distance schedule. The next step will now be to get the case into court, so as to put the supreme court, which is a Republican tribunal, on record against the measure, for it is not believed by the Populists that the court will endorse the

schedule. Thus the measure would become a campaign document, and its real object in that way reached. That the railroads will fight it was evidenced when they refused to participate in the hearing before the board, and this is confirmed by a statement made by A. A. Hurd that his road, the Santa Fe, and he believed all the other roads would take no notice of the schedule, not even attack it in court, leaving the Populists to get it before the supreme court as best they can.

THREATENS BUCHAN'S CHANCE.

Col. James D. Snoddy Now a Candidate for Congress.

Col. James D. Snoddy, of Pleasanton, Linn county, one of the old time Republican workers of the Second congressional district, has come out as a candidate for congress. Since the Olathe convention adjourned, the state convention nominated one Linn county man for congress, and Dick Blue was placed on the ticket as a candidate for congressman-at-large, and now Colonel Snoddy will ask the Second district Republicans to break their dead-lock by voting for him when their convention reconvenes at Lawrence July 10.

The Pleasanton Observer is for Colonel Snoddy, and it is said that the Linn county delegation will be for him. If this is true Billy Buchanan will lose eleven votes on the first ballot, which he had counted on standing by him to the last, and his candidacy will end right there.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CUREY & Co., Toledo, O.

Go to Pope's Theater.

Charles Elliott who was manager of the Grand opera here last winter, has gone to St. Louis to accept the management of Pope's theater, one of the largest in the city. Mr. Elliott had just returned from his engagement with Sanders. He is an excellent theatrical manager and a good fellow, and deserves all the promotions he gets.
